

KEEP YOUR EYES SAFE AT HOME

Almost half of all eye injuries occur in and around the home.

Cooking, cleaning, home repair, yard work and even hobbies all pose potential sight-threatening hazards.

Wearing protective eyewear could prevent up to 90% of eye injuries at home. For that reason, we recommend wearing ANSI-approved safety glasses when performing activities such as:

- Mowing and trimming
- Operating power tools
- Using hazardous chemicals and cleaners
- Spreading fertilizer

If you don't require vision correction, or if you wear contact lenses, you can purchase ANSI-approved safety glasses at hardware stores or home improvement centers. For those who require correction, our office can prescribe prescription safety glasses that meet ANSI standards.
